

Ham 118 – Getting Started, Read Me

Dr. Marc & Rosemary © 230719

1. Everyone is getting-started, just at a different level.
 - a. Depending on your license and experience, choose the appropriate topics.
 - b. These are selections from our extensive web collection of one-page white-papers on www.evergreencg.org
2. The articles come from your questions and requests.
 - a. Consequently, there are subjects on most every facet of amateur radio.
 - b. For more articles and discussion, go to the folder shown in the table.
3. If you need help finding something, ask an Elmer or the Newbies Coordinator.
 - a. If a topic does not exist, just ask for it.
4. Ham radio: when nothing else works.

Introduction:

Ham 118 **Getting Started, Readme** is the directory for this folder.

Ham 101 **How to be a Ham** gives a flavor of what is happening and how to get licensed in 4-weeks or less. Promise.

Ham 117 **About, Who We Are** introduces Evergreen Communications Group activities.

Technician License:

Ham 10A **First Radio: Simplex for Emergency** is the normal first radio and how to talk.

Ham 39 **This Is What We Have, VHF/UHF** covers our base / mobile radio and antenna set-up.

Ham 51 **Almost, OK, to Great** compares three levels of stations and the equipment involved.

Ham 106 **Baofeng Issues and Better Handi** goes through multiple Handis and settles on Alinco as preferred.

General & Extra:

Ham 113 **HF Equipment, What You Need** identifies an excellent, but not expensive station with radio and antennas.

Activities & Index:

Ham 99 **Article Index** lists all the one-page white-paper articles, except the AllStar details.

Ham 124 **New Subject-Matter Elmers** identifies the many different things you can become involved & the point person.
